SATELLITE INTERNET

CHALLENGE

One World Rental were tasked with setting up **satellite internet** for a television production company based in a rural area just outside of London.

Our OWR team's challenge was to deliver a secure, fast and high quality internet service in heavy snow conditions.

SOLUTION

Our technicians arrived at midday to start the installation and provide an on-site service throughout the day, this involved:

- ✓ Setup equipment
- ✓ Run temporary power
- ✓ Installing Ethernet
- ✓ Setup dish
- ✓ Alignment
- ✓ Clear sky speed test
- ✓ Quality testing
- ✓ Monitor signals

RESULT

The project was a huge success, our client was very impressed with the speed and quality of our service, especially in heavy snow conditions.
